

lift off ute service body

TSB®'s toolbox is the only lift-off service body available that takes just 8 min. for one person to remove.

Strong and Tough

Reinforced light-weight aluminium construction for maximum strength to weight ratio.

Large Range of Models (Customisable)

Extensive model range to choose from for single space and dual cab type vehicles.

Protects Your Tools (Maintains Value)

Water-resistant and dustproof compartments protect your valuable assets from the elements and extends the life of your tools.

Weatherproof & Durable

Body chromate-dipped and powder coated (in a wide range of colours) providing full corrosion resistance and neat appearance.

Fast Access and Convenience

Ergonomic compartment design maximises your storage space and lets you find your tools quickly and easily.

Keeps Tools Safe & Secure

Fully lockable so you can leave your toolbox on site overnight safely and securely. The body is removed and securely stored on 4 independent 1000 kg support jacks!

Long Service Life

A TSB's service life is equivalent to 3-4 vehicle changeovers. When it's time to upgrade to a new vehicle, the TSB can be transferred to your new vehicle at no additional cost.

Tools There – No Vehicle

When servicing or repairing your vehicle, just remove the TSB service and transfer it to another vehicle, or leave it on site. No down-time or lost days by always having your tools on hand.

Reputable & Reliable /Fully Guaranteed

Quality assured with full manufacturer's guarantee and top class after sales service.

Multi-purpose Business Asset

On weekends, lift off your service body to carry recreational items or do tip runs on your ute/flat tray vehicle.
